In the Claims

Kindly amend the claims as follows:

- 1-2 (canceled)
- 3. (currently amended) A chimeric protein heterodimer complex, wherein a chimeric protein comprises an α chain immunoglobulin heavy chain- β chain immunoglobulin heavy chain chimeric protein heterodimer complex, wherein a chimeric protein comprising the α chain of an integrin and the heavy chain of an immunoglobulin and a chimeric protein comprising the β chain of the integrin and the heavy chain of the immunoglobulin are bound to each other by a disulfide bond between the heavy chains and stably associated with its function retained, and wherein the α chain of an integrin is α 4 or α 2 and the β chain is β 1.
 - 4-6 (canceled)
- 7. (currently amended) A chimeric protein heterodimer complex, according to claim 3, wherein the chimeric protein comprising the α4 of an-said integrin and the heavy chain of an said immunoglobulin comprises the amino acid sequence of SEQ ID NO:1.
- 8. (currently amended) A chimeric protein heterodimer complex, according to claim 3, wherein the chimeric protein comprising the α2 of an-said integrin and the heavy chain of an said immunoglobulin comprises the amino acid sequence of SEQ ID NO:19.
- 9. (currently amended) A chimeric protein heterodimer complex, according to claim 3, wherein the chimeric protein comprising the β 1 of an-said integrin and the heavy chain of an said immunoglobulin comprises the amino acid sequence of SEQ ID NO:2.
 - 10-24 (canceled)
- 25. (currently amended) A drug composition, comprising a chimeric protein heterodimer complex as stated of in claim 3.

26-49 (canceled)

- 50. (currently amended) A chimeric protein heterodimer complex, according to claim 3, wherein the α chain of said integrin and the β chain of said integrin are polypeptides derived from an extracellular portion, and wherein the heavy chain of said immunoglobulin is connected to a C terminus of both the α chain and the β chain of said integrin.
 - 51 (canceled)
- 52. (New) The chimeric protein heterodimer complex, according to claim 3, wherein the α chain is α 2.
